/Project-2/NFLProject/login.cpp"] --> C;
```

The diagram illustrates a file dependency structure. At the top is a gray box representing a header file: 'C:/Users/nicho/Desktop /CS1D Proj2/Project-2 /Project-2/NFLProject/login.h'. Below it are two white boxes representing source files. The left box is 'C:/Users/nicho/Desktop /CS1D Proj2/Project-2 /Project-2/NFLProject/NFLProject.cpp' and the right box is 'C:/Users/nicho/Desktop /CS1D Proj2/Project-2 /Project-2/NFLProject/login.cpp'. Blue arrows point from each source file box up to the header file box, indicating that both source files include the header file.
