

Database::getAllDistances

```
graph LR; A[Database::getAllDistances] --> B[Distance::getEndingStadium]; A --> C[Distance::getStartingStadium];
```

The diagram illustrates a method call from a database layer to a distance object. A gray box on the left, labeled 'Database::getAllDistances', has two blue arrows pointing to two white boxes on the right. The top white box is labeled 'Distance::getEndingStadium' and the bottom white box is labeled 'Distance::getStartingStadium'.

Distance::getEndingStadium

Distance::getStartingStadium
